9999.340.771 | rajeshranjan8271@gmail.com

Driven and detail-oriented Web Developer with expertise in **MERN stack (JavaScript, TypeScript, MongoDB, Express JS, React JS, Node JS, Next JS, ReactNative)** seeking a challenging role to leverage my skills in building scalable, responsive, and high-performance applications. Passionate about developing efficient back-end solutions and intuitive front-end designs, I am eager to contribute to a dynamic team focused on delivering innovative digital experiences.

PERSONAL PROJECTS

SHOPPRIXITY (JavaScript, ReactJs, NodeJs, ExpressJS, MongoDB and Prisma ORM)

🔗 Link : <https://shopprixity.vercel.app/>

Shopprixity is a platform is designed to provide users with an intuitive and robust online shopping experience.

Key Features & Tech Stack:

- **Product Catalog Management:** Developed functionality to create, update, and manage product listings with dynamic categories and descriptions.
- **User Account Management:** Integrated user registration, login, and order tracking with secure authentication using **Firebase** (Google login) as well as User-based login and **JWT** for session management.
- **Shopping Cart & Checkout:** Implemented shopping cart functionality allowing users to add products, view cart, and proceed with secure checkout.
- **Payment Gateway Integration:** Integrated **PayPal** API to process payments securely, ensuring a seamless transaction experience.
- **Order Management & Notifications:** Built an order tracking system for admins and customers.
- **Search and Filters:** Easy search functionality with advanced filtering options to help users find the products they need.
- **Responsive Design:** Optimized the platform for mobile, tablet, and desktop devices using **React** and **Tailwind CSS** for a user-friendly experience.
- **Tech Stack:** Frontend powered by **React JS, JavaScript, Tailwind CSS**, and **Shadcn UI**, and Backend with **Node JS, Express JS, MongoDB** with **Prisma ORM** and validations with **Vine JS**.

BANCARDIFYME (Next.JS and TypeScript)

🔗 Link : <https://bancardifyme.netlify.app/>

BancardifyMe is a secure, feature-rich banking application built on Horizon SaaS platform.

Key Features & Tech Stack:

- **Multi-Account Integration & Real-Time Transactions** – Connected multiple bank accounts using Plaid and enabled real-time transaction tracking.
- **Seamless Peer-to-Peer Transfers** – Integrated Dwolla for secure and instant money transfers between users.
- **Financial Insights & Data Visualization** – Leveraged Chart.js to track spending patterns and visualize financial trends.
- **Scalable & Secure Architecture** – Built with Next.js, TypeScript, TailwindCSS, and Appwrite, ensuring robust authentication, data security, and scalability.

EXPERIENCE

FRONT-END DEVELOPER (UI/UX)

NTT DATA SERVICES | NOIDA, UP

📅 2020 – PRESENT

- **Web Application Development & Performance Optimization:** Developed responsive, user-centric web applications using React.js, improving user engagement by 25% through enhanced UI/UX design and performance optimization techniques such as memoization, lazy loading, and dynamic imports.

- **SPA & Cross-Browser Compatibility:** Designed and built single-page applications (SPAs) with optimized load times and a streamlined user experience, ensuring accessibility and compatibility across major browsers and devices.
- **API Integration & Backend Collaboration:** Integrated third-party libraries, APIs (e.g., payment processing, geolocation, authentication), and RESTful APIs with Express.js/Node.js to extend functionality and ensure seamless data flow.
- **Database & Code Efficiency:** Utilized MongoDB for efficient data management, reducing server load by 15%, and implemented reusable component libraries to reduce development time for new features by 30%.
- **Team Collaboration & Agile Workflow:** Collaborated with cross-functional teams (backend developers, UX/UI designers, product managers) in an Agile environment, code reviews, and ensuring high-quality deliverables.

ASSITANT EXECUTIVE

IENERGIZER IT SERVICES PVT. LTD. | NOIDA, UP

 2018 – 2020

- Monitored and reviewed **audio and video content** to ensure adherence to community guidelines, identifying and removing any inappropriate or harmful material to maintain a positive gaming environment.
- **Moderated in-game scripts** to prevent misuse of language, inappropriate content, and breaches of game rules, enhancing the overall player experience and ensuring a safe virtual community.

TECH INTERN

DIGITAL WEB SOLUTIONS PVT. LTD. | GURUGRAM, HARYANA

 2017

- **Web Application Development & Optimization:** Contributed to the design, development, and optimization of responsive web applications using HTML, CSS, JavaScript, and Bootstrap.
- **UI/UX Collaboration:** Worked closely with design teams to implement responsive, visually appealing user interfaces, ensuring a seamless user experience across devices and browsers.
- **Code Reusability & Best Practices:** Wrote reusable, modular code and adhered to front-end development best practices for maintainability and scalability.
- **Debugging & Troubleshooting:** Assisted in debugging and troubleshooting issues, applying responsive design techniques to optimize the application for both mobile and desktop platforms.

CERTIFICATIONS

- React JS Certification | GeeksForGeeks, Noida
- MERN Full Stack Web Development Certification | GeeksForGeeks, Noida
- Python Certification | Ducat, Noida
- Java Development Certification | Ducat, Noida
